Agenda Item No. 6(E)(1)(F)

TO: Honorable Chairperson and Members
Board of County Commissioners

DATE: January 23, 2001

FROM: M.E. Sturheim
County Manager

SUBJECT: Resolution Adopting Investment
Policy for Public Funds

RECOMMENDATION

It is recommended that the Board approve the attached resolution rescinding Resolution No. R-1178-95 in its entirety and providing a new written investment policy attached herein, which applies to all County funds in excess of the amounts needed to meet current expenses.

BACKGROUND

Florida Legislature passed Senate Bill 2090 creating Florida Statutes 218.415, an act relating to investment of public funds. This legislation requires a written investment policy be adopted by the local governing body. On September 14, 1995, the current Investment Policy for Miami-Dade County was adopted by Resolution No. R-1178-95. The attached resolution rescinds Resolution No. R-1178-95 in its entirety and authorizes the implementation of a new Investment Policy which modifies the previously adopted policy.

The modifications consist of clarifications to investment strategies, performance measurement, and additional authorized investments, such as Money Market funds. Further, the portfolio composition has been realigned to be more prudent. The attached investment policy follows the current investment procedures and incorporates investment instruments authorized by F.S. 218.415 and Miami-Dade County Ordinance No. O-84-47. The investment objectives of "safety, liquidity of funds and the maximization of investment income" are stressed. The safety of principal and liquidity of funds is given a priority consideration, with investment income a secondary consideration. The policy defines the "prudent person" standard, and defines the portfolio composition.

The policy requires monthly performance reports to be presented to the Clerk and to the Finance Director, quarterly performance reports to be submitted to the Investment Advisory Committee, and an annual report to be presented to the Board within 90 days of the end of the fiscal year.

The Investment Advisory Committee, at its meeting of September 13, 2000, reviewed the attached Investment Policy and approved its presentation to the Board.

MIAMI-DADE COUNTY

INVESTMENT POLICY

SCOPE

The purpose of this investment policy is to outline responsibilities, set investment goals, establish strategies to achieve stated objectives, establish internal controls and operational procedures and prepare method of performance measurement.

The investment policy applies to all funds held by or for the benefit of the Miami-Dade County Board of County Commissioners in excess of those required to meet short-term expenses. These funds include the General Fund, Special Revenue Funds, Debt Service Funds, Capital Project Funds, Trust & Agency Funds, Miami-Dade Water & Sewer Funds, Aviation Funds, Miami-Dade County Housing Funds, the Clerk's Funds and any other fund created by the County unless specifically exempted by Board Ordinance or resolution.

INVESTMENT OBJECTIVES

The County's overall investment objectives are the safety of capital, liquidity of funds, and investment income, in that order. The following investment objectives will be applied in the management of the County's funds.

(A) THE SAFETY OF PRINCIPAL:

The County's investment strategy will ensure the preservation of principal in the overall portfolio. Each investment transaction shall seek to avoid losses in the form of investment risk.

Investment risk may be in the form of default risk, market risk or operating risk. Default risk is controlled by purchasing securities issued by entities of high credit quality. Market risk is controlled by maintaining a sufficient level of liquidity thereby limiting the necessity of selling instruments at a loss. Operating risk is controlled by strict adherence to sound operating procedures.

(B) THE LIQUIDITY OF FUNDS:

The County investment strategy will provide sufficient liquidity to meet the County's operating payroll and other requirements. This liquidity is in the form of investments, which are readily convertible to cash with no loss of principal. The policy of Miami-Dade County is to meet liquidity requirements and to place remaining funds in yield investment.

(C) THE MAXIMIZATION OF INVESTMENT INCOME:

When investing public funds, the County will strive to maximize return on the portfolio but it shall be secondary to the requirements for safety and liquidity. The County will act responsibly as custodians of the public trust.

INVESTMENT STRATEGIES

The following strategies may be used to maximize return on investments:

(1) Matching Maturities to Known Cash Needs

The maturities of investments will be matched to known cash needs and anticipated net cash outflow requirements.

(2) Maturity Extension

A positive sloping or "normal" yield curve rewards longer-term investments. All purchase decisions that do not involve the matching of known cash needs will be based on an analysis of the relative yield benefit to lengthening the maturity.

(3) Determination of an Investment's Relative Value

By following historical spread relationships between different security types and issuers, it is possible to determine the securities that offer the best yield value on any given day. The County will seek to invest funds in the highest yielding investment security within established policy guidelines for safety and liquidity.

(4) Market Opportunities

Although money markets are generally efficient, there are opportunities for yield enhancement by selling securities that become unusually "expensive" or high in price, and purchasing similar securities that are considered "cheap" or low in price. These "swap" opportunities often occur as the spreads between different types of securities narrow or widen.

(5) Anticipating Market Changes

Although it is not possible to consistently predict market trends, an understanding of the factors that affect the market is important when determining an optimal maturity for the portfolio. Trading is not to be made solely on the basis of interest rate forecasts, but specific decisions involving maturity dates should consider short-term market expectations.

PERFORMANCE MEASUREMENT

The investment performance of Miami-Dade County will be evaluated quarterly by comparison to established benchmarks. The selection of the benchmarks will be based upon the investment strategy and length of the investment portfolio and shall be approved by the Finance Director and the Investment Advisory Committee. One of the selected benchmarks will be the Local Government Funds Trust Fund. This index is considered a benchmark for riskless investment transactions and therefore, comprise a standard for short-term investment of public funds.

PRUDENCE AND ETHICAL STANDARDS

The "prudent person" standard shall be used by investment officials in the management of the overall investment portfolio.

The "prudent person" standard is understood to mean the following: investments shall be made with judgement and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment considering the probable safety of their capital as well as the probable income to be derived.

Employees involved in the investment program shall refrain from personal business activities that could conflict with proper execution of the investment decisions. Employees and investment officers shall subordinate their personal investment transactions to those of the County, particularly with regard to the timing of purchase and sales.

AUTHORIZED INVESTMENTS

The County's investment authority derives from Florida Statutes 218.415 and by County Ordinance. Time Deposits made in banks and savings and loan associations must be made with qualified public depositories in accordance with Chapter 280, Florida Statutes. The County shall purchase or sell investment securities at prevailing market rates.

J. Investment in derivative products shall be prohibited by Miami-Dade County. For purposes of this investment policy, callable agency securities are excluded from the definition of derivative products.

MATURITY AND LIQUIDITY REQUIREMENT

To the extent possible, an attempt will be made to match investment maturities with known cash needs and anticipated cash flow requirements. Current operating funds shall maintain a weighted average maturity of no longer than twelve (12) months. Investments of for bond reserves, construction funds, and other non-operating funds shall have a term appropriate to the need for funds and in accordance with debt covenants. No single investment maturity in the portfolio may exceed three (3) years.

DIVERSIFICATION AND RISK

The County will set procedures to control risks and diversify investments regarding specific security types, maturities, issuers and financial institutions. Investment risk can result from issuer defaults, market fluctuations or other technical complications leading to temporary illiquidity.

Portfolio diversification is employed to control the risk of loss resulting from over concentration of assets in a specific maturity, issuer, instrument, dealer, or bank through which these instruments are bought and sold. Prudence shall be exercised in the selection of securities as a way to minimize default risk. No individual investment transaction shall be undertaken that jeopardizes the total capital position of the overall portfolio. In the event of default of a specific issuer, the investment officer shall review, and if appropriate, proceed to liquidate securities have comparable credit risk.

To control market risk, volatile investment instruments shall be avoided.

AUTHORIZED INVESTMENT INSTITUTIONS AND DEALERS

Securities may be purchased only through financial institutions that are state-certified qualified public depositories that provide the services of a securities dealer or a broker/dealer who is a member of the National Association of Securities Dealers (NASD) and who meets the capital adequacy standard established by the Federal Reserve Bank of New York. Equity should equal at least 120 percent of risk based assets.

Repurchase agreement may be negotiated with:

- A. A primary securities dealer.
- B. Financial institutions that are qualified public depositories under state law, or
- C. Commercial banks, insurance companies, or investment banking firms, including the holding companies of these institutions, whose rating on long-term debt is in the two highest rating categories by Moody's Investor Service or Standard & Poor's Corporation.

THIRD-PARTY CUSTODIAL AGREEMENTS

The County will execute a Custodial Safekeeping Agreement with a commercial bank. All securities purchased and/or collateral obtained by the County shall be property designated as an asset of the County and held in safekeeping and no withdrawal of such securities, in whole or in part, shall be made from safekeeping except by authorized County staff.

Security transactions between a broker-dealer and the custodian involving purchase or sale of securities by transfer of money or securities must be made on a 'Delivery vs. Payment' basis, if applicable, to ensure that the custodian will have the security or money, as appropriate, in hand at the conclusion of the transaction.

All securities purchased by the County must be held for the credit of the County by a qualified public depository and must be kept by the depository in an account separate and apart from the assets of the financial institution.

MASTER REPURCHASE AGREEMENT

The County will require all approved institutions and dealers transacting repurchase agreements to execute and perform as stated in the Master Repurchase Agreement. All repurchase agreement transactions will adhere to requirements of the Master Repurchase Agreement.

COMPETITIVE BIDDING

The County's staff will determine the approximate maturity date of an investment based upon cash-flow needs and market conditions, analyze and select one or more optimal types of investments, and competitively bid the selected security to assure the best execution to the County. When bidding an investment, a minimum of three (3) banks and/or dealers must be contacted and asked to provide bids on the securities in question. In instances in which competing dealers are not able to show a bid on the exact security in question, a security that is similar in terms of product type, structure and maturity is acceptable. Bids will be held in confidence until awarded and the bid deemed to best meet the investment objectives of this policy must be selected.

INTERNAL CONTROLS AND OPERATIONAL PROCEDURES

The Director of Cash Management Division shall establish and monitor a set of written internal controls designed to protect the County's funds and ensure proper accounting and reporting of securities transactions. The internal controls should be designed to prevent losses of funds, which might arise from fraud, employee error, misrepresentation by third parties, or imprudent actions by County employees. Such internal controls shall include, but not be limited to, the following:

- A. All securities purchased or sold will be transferred only under the 'delivery versus payment' (D.V.P.) method to insure that funds or securities are not released until all criteria relating to the specific transaction are met unless the parties otherwise agree prior to the transfer of fund.
- B. The County is authorized to accept, on behalf of and in the name of Miami-Dade County, bank trust receipts or safekeeping confirmations as evidence of actual delivery of the obligations or securities in return for investment of funds.
- C. Trust receipts or safekeeping confirmations shall fully describe the various obligations or securities held. The receipt or confirmation shall state that the investment is held in the name of Miami-Dade County.

D. The actual obligations or securities, whether in book-entry or physical form, on which trust receipts or confirmations are issued may be held by the custodial bank and/or institution or a designated correspondent bank which has a correspondent relation to the County custodian.

E. Other internal controls are:

1. Written documentation of telephone transactions.
2. Adequate separation of duties.
3. Custodial safekeeping.
4. Supervisory control of employee action and operation review.
5. Portfolio statistics and reporting on a monthly basis.

F. All daily investment activity reviewed by the Director of Cash Management Division. The Cash Management Division is under the direct authority of the Finance Director.

The following positions are designated by the County as having the authority to initiate all investment activities:

1. Director of Cash Management Division
2. Portfolio Manager

The County's independent auditors shall review the system of internal controls as part of the County's annual financial audit. The audit shall also include a report on compliance by the County with Florida Statutes Section 218.415.

INVESTMENT REPORTING

Monthly, a portfolio report shall be provided Director of Cash Management Division through the Finance Director to the Clerk of the Circuit and County Courts, and to the County Manager. Quarterly, the Finance Director shall report the portfolio performance to the Investment Advisory Committee. The report shall include a breakdown of the portfolio by class or type, book value, income earned, and market value, as well as its overall statistical performance during that period.

Annually, a portfolio performance report shall be presented to the Board of County Commissioners within 90 days of fiscal year end.

INVESTMENT TRAINING

The County's officials responsible for making investment decisions must annually complete eight (8) hours of continuing education in subjects or courses of study related to investment practices and products.
